🌐 www.linkedin.com/in/afnan-abo-asal

Final-year Computer Systems Engineering student at Palestine Technical University – Kadoorie (PTUK), with experience in **ASP.NET Core backend development**. Eager to apply my skills in real-world environments

Education

Bachelor of Computer Systems Engineering

Engineering and Technology, PTUK, Tulkarm, Palestine

GPA: 84%

2021–Now

Tawjihi (Scientific Stream)

Anabta School, Tulkarm, Palestine

GPA: 90.1%

2021

Internships and Training

ASP.NET Backend Development Course

Guide: Eng. Tariq Shreem, Knowledge Academy, Online

February 2025 (ongoing)

- Built web applications using **C#, ASP.NET API & MVC**, and **Entity Framework**
- Designed and managed **SQL Server databases**, implementing CRUD operations and relationships
- Developed and consumed **RESTful APIs** with authentication, authorization (JWT), and error handling
- Applied **Object-Oriented Programming** principles, LINQ queries, and N-tier architecture for scalable solutions

Project Management and Marketing

Guide: Abdullah Khader, Entrepreneurship Center for Accounting Science, PTUK

November 2021

- Developed a **business plan**, conducted a **feasibility study** and performed a **SWOT analysis**
- Developed **marketing strategies** and **promotional plans**

Projects

Graduation Project – Learning Management System

Guide: Dr. Anas Melhem, CSE Department, PTUK

September 2025 (ongoing)

- Developing a **web-based LMS** using **React, ASP.NET Core**, and **SQL Server**
- Streamlining **program and course management** while improving **student–instructor interaction**
- Emphasizing **usability and personalization** through custom dashboards and efficient communication tools

E-Commerce API – KASHOP

Guide: Eng. Tariq Shreem, ASP.NET Backend Course, Knowledge Academy

October 2025

- Developed a **3-tier architecture** e-commerce API using **ASP.NET Core** and the **Repository Design Pattern**
- Implemented **JWT-based authentication**, **email verification**, and **password recovery**
- Built core modules for **product, category, and order management**, including **cart, checkout**, and **reviews**

E-Commerce Web Application – Fake Store (MVC)

Guide: Eng. Tariq Shreem, ASP.NET Backend Course, Knowledge Academy

July 2025

- Built an **ASP.NET Core MVC** e-commerce app with CRUD operations for **categories, brands, and products**
- Added **input validation**, **image uploads**, and **area-based separation** to enhance usability and maintainability

Skills

- **Programming & Web Development:** C#, Java, C++, RESTful APIs, ASP.NET MVC, Entity Framework, JavaScript, HTML, CSS, Bootstrap
- **Database & Tools:** SQL Server, Visual Studio, VS Code, Git & GitHub, Postman, Adobe Illustrator, AutoCAD, Trello
- **Communication:** C2 Proficient in English (EF SET Certificate)

Positions of Responsibility

- **President of IVR Engineering Society** at PTUK, a student-led, non-profit organization dedicated to enhancing students' academic, technical, cultural, and leadership skills through collaborative initiatives, training, and community engagement
